

## FINDING THE DEVICE NUMBER

**INTRODUCTION:** If you are unsure of your PC/laptop's number or name, this guide will show you how to obtain it.

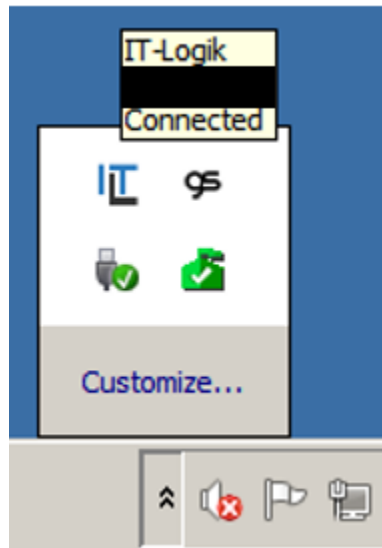

**SYSTEM REQUIREMENTS:** NA

**WHAT YOU MAY NEED & OTHER CONSIDERATIONS:**

- NA

## METHOD ONE

The easiest way to do it is the following: you can navigate to the little arrow next to the date and time (bottom right) and scroll over the IT Logik logo to see your PC number (you may need to click it if nothing pops up).

## METHOD TWO

Click the **Start** menu

Type in **cmd** and run the program

Type in "**hostname**" and press Enter

```
C:\Windows\system32\cmd.exe
Microsoft Windows [Version 6.1.7601]
Copyright (c) 2009 Microsoft Corporation. All rights reserved.

U:\Users\[redacted]>hostname
[green bar]
U:\Users\[redacted]>
```

The green bar is where your PC number will be displayed.

Please provide whatever is displayed and confirm when it is okay to connect if required.
